

COMPANY PROFILE

Interpath Laboratory, Inc. is a fully integrated, for-profit, clinical and anatomic pathology medical laboratory. Established in 1967, we offer a comprehensive suite of services that enables clients to have a positive impact on their local health community. Since its inception, Interpath has remained dedicated to providing rapid, reliable and economical laboratory testing services. We have experienced sustained growth in testing volumes over the years due, in part, to our focus on customer service.

Our regional laboratory operations and service centers in outpatient facilities are located throughout Oregon, Washington and Idaho. Our goal is to provide timely, accurate, and quality results by putting the patient first.

We are a family owned and operated organization with our reputation and long-term commitment to our clients as our guiding principles. The commitment, dedication, and integrity of our exceptional team of employees ensure not only the success of our company, but that we will make a qualitative difference in the healthcare industry.

Most all Assured Direct Care clinics provide you the capability to get labs drawn in the clinic. If not, InterPath Labs has many locations for employees to get labs drawn. Go to <https://www.interpathlab.com/locations/> to find the closest location for you.
